RECOMMENDATIONS—We find that the old furnaces with which the jail is now attempted to be heated, have been in use since its construction; that with them in use the cost of fuel is about $175 per year, and that in extreme cold weather the residence portion cannot be heated at all; that with new and modern methods of heating a saving could be made of upwards of $100 per year, and all parts of the jail comfortably heated. We earnestly recommend an early investigation and correction of this evil.

In my last report it was stated that an application had been made to the Probate Court for the appointment of special commissioners on Matteson Lake Drain. The application was denied by the Court and the case dismissed. Since that date another application has been filed with the Drain Commissioner on which proceedings have been commenced, the first order of determination issued, and an appli-

cation made to the Probate Court of St. Joseph County for the appointment of special commissioners.

An application was made to Probate Court for the appointment of special commissioners on Quincy No. 2 Drain. The appointment of commissioners was denied by the Court for the reason that it was shown at the hearing that the drain, if constructed, would affect lands in Hillsdale County, since which time joint action has been commenced with the Hillsdale Commissioner.

Application was made to Probate Court for the appointment of special commissioners on County No. 33 Drain. The appointment of commissioners was denied by the Court for the reason that the Commissioner did not present the original survey of the drain, and the case will be taken to the higher courts.

Application has been made for the cleaning out, deepening, widening and extending of the following named drains, upon which joint action has been commenced with the Commissioner of Hillsdale County:

Bowen Creek Drain, Butler.

Soap Creek Drain, Butler.

Poats Drain, Algansee.

Application has been made for the extending of Speaker No. 36 Drain, upon which no action has been taken for want of time.

Application has been made for the cleaning out of Warren Brook Nos. 20 and 21 Drain, County No. 27 Drain, and Branch No. 1 of Blackwell Drain, upon which no action has been taken for want of time.

Application has been made for the deepening, widening and extending of County Drain No. 30, which has been surveyed, and for the cleaning out, deepening and widening of Gilead No. 3 Drain, which has been surveyed.

Application has been made for the locating and establishing of a drain in the townships of Bronson and Bethel, known as Mickoliczak Drain. Proceedings got as far as notice of letting, when an injunction was served. A decree has been entered enjoining the Commissioner from further proceedings and the case dismissed at the cost of the applicants.

The case of Weaver Drain, which was pending in Circuit Court at last report, has been heard, but no decision has yet been reached.

Under the provisions of Sec. 2, Chapter 8, of the Drain Law of 1897, a portion of the Benton Drain has been cleaned out.

Cost of re-cleaning:

Hoza Harris, contractor	$20 00
D. E. Weage, Commissioner	5 40
Total	$25 40

The Bingham Drain has been surveyed and the first Order of Determination issued.

An application has been made for the cleaning out, deepening, widening and extending of Bronson No. 14 Drain, which has been surveyed,

And I do hereby certify that the above embraces a full and true report of all the drains constructed, finished or begun under my supervision, or applied for during the year now ending, and that the financial statement of each drain is true and correct.

All of which is respectfully submitted.
